

a collection of remixes

ambassador21

in celebration its 5th anniversary, ambassador21 and invasion wreck chords proudly presents new excellent release - this time a collection of remixes, which has been produced by ambassador21 in 2003-2007. some of the remixes are unreleased (proyecto mirage, foetus), some others are been previously released on-line only (ctrlr, the shizit, hanel). "cut&go" brings 15 very diverse and explosive tracks. ambassador21-remixers present sometimes unexpected edges of other producers, as their ownes - sounds range from heavy industrial and noisy breakbeats to drum'n'bass interferences or speedcore massacre.

original tracks by synapscape, foetus, sonar, :wumpscut:, snog, rasputeen, proyecto mirage, kiew, f.y.d., bak XIII, ctrlr, beinhaus, the shizit, hanel and altera forma.
